

TALK TO ME NICE

Amir Obè

Girl you ain't no stranger-
Girl you ain't no stranger-
Girl you ain't no stranger...

Talk to me nice
Talk to me nice
Talk to me nice
Talk to me nice

Girl you ain't no stranger-
Girl you ain't no stranger-
Girl you ain't no stranger...

Yea Yea
Girl you ain't no stranger
And I'm no entertainer
They don't want me for me
They just want to be seen
They just want to get in between us
I'll unfollow all them bitches, I'll clean up
She just asked who hurt you
The way I speak is too hurtful
Even though I do dirt too
I don't like how these girls move, no
But you know I'm never gotn' leave ya
I'll unfollow all of them b*ches, I'll clean up

It's time for me to say I love her and really mean it
It's time for her to say something and really mean it, oh
Love her like my drug, I love her like I love my drug
Baby when I say, I'll love you tomorrow and today
Like I loved you, loved you yesterday
I keep it consistent, never want you to know the difference
When I want you to

Talk to me nice
Talk to me nice
Talk to me nice
Talk to me nice

High grade
Do lean, all types of medicine
All types of self medication
Boost my adrenaline
Call yo lil bitch for recreation
Mason, Maison
Wear the red flags for the nation
Woah
Crash the border, ain't no procrastination
She chosen me to put mine

T's time for me to say I love her and really mean it
It's time for her to say something and really mean it, oh
Love her like my drug, I love her like I love my drug
Baby when I say, I'll love you tomorrow and today
Like I loved you, loved you yesterday
I keep it consistent, never want you to know the difference

When I want you to

Talk to me nice
Talk to me nice
Talk to me nice
Talk to me nice

Girl you ain't no stranger baby talk to me nice

Four letter word, make your choice then
Love or Hate baby pick your poison
I've been low-key, trying to find me
You've been in the Very Important
Babe you my new addiction
Love you like my prescription
Love you like my drug
I love you like I love my drug
Love you like I love myself
Like I love my high
Both our bloodshot eyes
Every time we lock eyes
Messy, messy, messy love
Talk nice when you text me love
