

## Despair

Amorphis

I run through the night  
On this arduous journey  
A heavy burden in my heart  
A whole life on my shoulders  
Gone are all the familiar places  
I know my world no more  
Sapped away my strength  
Blocked each road and byway

Starless is the sky tonight  
The world frozen in silence  
Broken only by the roar  
Starless is the sky tonight  
The world frozen in silence  
Broken only by the roar  
Of Tuonela's distant rapids

I stumble on the rocks  
Drift down roads so grimy  
Been lost from those that I once knew  
Fleeing from shade to shadow  
Collapse on the side of a ditch  
I roll into black water  
Sucked in by the whirlpool  
I sink into oblivion  
I sink into oblivion  
I sink into oblivion

Starless is the sky tonight  
The world frozen in silence  
Broken only by the roar  
Of Tuonela's distant rapids

Starless is the sky tonight  
The world frozen in silence  
Broken only by the roar  
Starless is the sky tonight  
The world frozen in silence  
Broken only by the roar  
Of Tuonela's distant rapids
