Grieve Stricken Heart

Amorphis

Your helping hand is killing me If you see me suffer it's not your victory Sadistic forms of new way discipline Like I love myself I love to sin

And I want more And I want it low Of course you wont forgive me But I wont crawl

Look out for number one I pray on you it has begun Let the night stand one thousand years Longstanding ,everlasting Breathless masquerade I'm your devil in disguise

And I want more And I want it low Of course you wont forgive me But I wont crawl

Grieve stricken heart Calls upon you Grieve stricken heart My only look you fools I love my misery too

I'm the one to see your collapse I'm on the side of destruction On the side of black and I love to sin Mentally transmitted disease Rotten wretched attraction And I love myself

And I want more And I want it low Of course you wont forgive me But I wont crawl

Grieve stricken heart Calls upon you Grieve stricken heart My only look you fools I love my misery too
