Too Much to See

Amorphis

I remember you when I'm out there
I remember that I need to live again
Every time I see others, I get lost

It's tearing the dearest heart
It takes to extremes
For too long I got the stone
I don't move along

Got to (got to) close my eyes
Cause there's too much too see
And I'll take the diamond to where I belong
And stillness intrudes my dreams

I can see the sign in your suicide note
The twisted rumour that's never been told
Every time I'm in the need, I get lost

As my will
