

You I Need

Amorphis

I was born as all the world here was born
As those words and stories of the primeval song
I need no bow, I need no sword
My kingship's known to gods
Let this song go on

I need you to be the guide
The mirror to the sky and sea
Portray all above and fill all the days
Of life and death

The sea of my loneliness it needs to have a sky
To go with my story I also need to have your words:
Like a king has his moon
The queen has her sun
To make the sun go on

I need you to be the guide
The mirror to the sky and sea
Portray all above and fill all the days
Of life and death

Make the sun go on
The creator of the past
Make the sun go on and on
On and on

I need you to be the guide
The mirror to the sky and sea
Portray all above and fill all the days
Of life and death

Be my guide
Of life and death
