

# Wait Up For Me

Amos Lee

When you cannot get to sleep at night  
Taunted by that new daylight  
When you just can't sleep before the morn  
And you do not feel reborn

Wait up for me  
Wait up for me  
I'll be coming home  
So you don't have to be alone  
When you're lost out in this world  
And you feel you've come undone

You ain't nobody's little girl  
You ain't nobody's sacred son  
Wait up for me  
Wait up for me  
I'll be coming home  
So you don't have to be alone

Well I'm ragged too  
Just like you  
I might not show it  
But I feel it inside  
Well I'm ragged too  
Lost and blue  
Feeling like a little  
Child

Lately I've been thinking of  
All the losin' that I've done in love  
The wind she steals my sweet caress  
Please feel me in your emptiness  
Wait up for me  
Wait up for me  
I'll be comin' home

So you don't have to be alone  
Wait up for me  
Wait up for me  
I'll be comin' home  
So you don't have to be alone
