Got a one way ticket to a one horse town  
To be among Alisa

Gonna get that journey underway  
Ride a war in to stay  
Where every day is a sunny day  
When I think of you

Gonna climb on my horse and get out of here  
And gonna lay my root down

Well I've done nasty on her mother tongue  
You dawned the clouds and behind the sun  
Nothing arms but the ten miles  
'Cause I think of you

Don't you know I'm high?  
Don't you know I'm high?  
When I'm with you  
When I'm with you

Well it's a lead affair in a one horse town  
When you haven't got the money

And I am willing, I promise you  
Do everything that a man can do  
With his head way up in the sky of blue

Don't you know I'm high?  
Don't you know I'm high?  
When I'm with you  
When I'm with you
