

Interglacial Spell

Amplifier

Ice age cometh
let the fanfares bloweth
can't shake the feeling
been living on borrowed time
today's revealing
right before my very eyes

and off to the cold icy palace
with the church and the office
I'm just a helpless apprentice
and i'm lost in the darkness, yes

well, can't you tell
that you've been hypnotised
by a magic spell
we did a run from the diner
now who will pay the tithe

so dry your eyes
well, why the surprise?

can't shake the feeling
been living on borrowed time
today's revealing
right before my very eyes

well, can't you tell
that you've been hypnotised
by a magic spell
we did a run from the diner
now who will pay the tithe

so dry your eyes
well, why the surprise?

with the lathe and the prism
in the frozen museum
I'm just a helpless apprentice
and it's cold in the darkness
it's cold in the darkness
it's cold in the darkness
it's cold in the darkness
