

## Procedures

### Amplifier

Amongst process I'm finding  
And schemes that need designing  
With procedures for applying  
And purifying

With the taste of possibilities  
Of voodoo sensibilities  
Well I've been making my enquiries  
In matters such as these

A man needs insight to rely on  
To manipulate each outcome  
To have systems he can summon  
To master and govern

Purifying  
Testifying  
Sanctifying  
And death defying
