

# Rainbow Machine

Amplifier

Do not delay, morning is waiting to take you away  
On a ride to the heavens  
With rainbow eyes and sapphire skies

Come let the breeze chase away hauntings  
Over the seas and over the mountains  
Much further than any bad man

Living on our dreams  
Well can't you tell that they're pulling us apart slowly at the seams  
Up into nineteen  
With a covenant golden and meadows of forever green  
So come and play  
If you give me the sign well I'd take you there  
Come what may  
Far away

And we'll be chasing all the setting suns down  
Explode them with a kiss of nitro  
Somewhere far across the endless skies

Upon a wing and a prayer, would you dare  
To come and claim your reward?  
And everything that you heard and seen

Will amaze now that the next wave is ready to come

So let's put the afterburners on  
Until troubles are at far  
As the glittering stars  
We're sailing away  
Always trying to escape each mistake  
So just take my hand  
And we'll gaze upon  
The spider on the heart of the sun

Because living on our dreams  
Well can't you tell that they're pulling us apart slowly at the seams  
Up into nineteen  
With a covenant golden and meadows of forever green  
So come and play  
If you give me the sign well I'd take you there  
Come what may  
Yeah yeah  
Far away

Yeah yeah  
Yeah yeah yeah yeah yeah yeah  
Hey yeah yeah yeah yeah yeah  
Hey yeah yeah yeah yeah yeah  
Hey yeah yeah yeah yeah yeah
