

The Wave

Amplifier

ladies and gentlemen
step right up
for the end of the world
climb aboard the wave
to somewhere you ain't never been
and in a world of make believe
i'm the emperor and champion
of sheer suicide
of sheer suicide

hear me when i say
that i was brought to life upon the wave
i'm gonna catch a ride and see what i can see
i'm gonna climb inside of my time machine
into another dimension
into another dimension

into another dimension, another dimension
into another dimension, another dimension
into another dimension, another dimension
another dimension, another dimension

from the first to the last
the wave is waiting
for the rubies and diamonds
that are slipping through your fingers
in the glinting of an eye
i'm just a thought vibrating
and i'm riding on high
now that the wave is breaking

now that the future's waiting
i'm gonna step inside and take a ride
into another dimension, another dimension
into another dimension, another dimension
into another dimension, another dimension
another dimension, another dimension

oh yeah
oh yeah

HEY
