

## What Is Music?

### Amplifier

From beyond a ghostly place  
A magic spell is never seen  
Some things are incomprehensible  
Some things are simply inexpressible

In each series of events  
Entwines the fabric of relationships  
All things are just a consequence  
All things are more than just coincidence

Disturbances will be  
Where there is energy  
Where there is energy.

Something that we couldn't see  
One part a dream and one part reality

Disturbances will be  
Where there is energy  
Where there is energy

Something that we couldn't see  
One part a dream and one part reality

Prising open the hidden meaning  
At the heart of a paradox  
Of somewhere transiently tangible  
Of somewhere eternally ephemeral

Where there is energy  
Where there is energy  
One part a dream and one part reality

Disturbances will be  
Where there is energy  
Where there is energy

Something that we couldn't see  
One part a dream and one part reality  
Disturbances will be  
Where there is energy  
Where there is energy

Something that we couldn't see  
One part a dream and one part reality
