

## Where the River Goes

Amplifier

A blackbird came at the crack of day  
From the other side of the window I heard it say  
It's time to go  
Don't be filled with the fear you saw  
Waiting on the other side of the black door  
It's time to go  
And don't you know that I  
I go where the river goes  
Where the river goes I go  
And I  
I go where the river goes  
Where the river goes I go  
And the song I sang well the message fell on deaf ears  
Too deaf and tired to hear  
A simple blackbird melody  
The sweetly singing of the sun  
Right at the centre of a man is a spinning black hole  
Now it's time to follow and I  
I go where the river goes  
Where the river goes I go  
And I  
Well I go where the river goes  
Where the river goes I go  
I go  
I go  
I go  
I  
Go where the river goes  
Where the river goes I go  
I  
Go where the river goes  
Where the river goes I go  
I  
I go where the river goes  
Where the river goes I go  
I  
I go where the river goes  
Where the river goes I go
