

## Stepfather Child Molester

### Amputated Genitals

My perverse feeling mixed with mental illness  
Remind me when I was a child  
And the face of my father appears in my mind  
He was a drunk and vicious man who discharged his hate over me

The scars in my back and hands are just a signal  
And the line continues with my girlfriend's daughter  
With just eleven years old  
She is raped early in the mornings

All her classmates perceive their rotten and putrid stench  
She is subjected to painful humiliations  
How her internal organs segregate fluids that are not evacuated  
Her breath, sweat and hair stink

It's about three years raping her  
She knows she should say something but I threaten her  
My semen has been deposited during all these years inside her  
And she hasn't been able to expel it yet

Her mom, a stupid bitch who only wants have someone to fuck her  
Knows I rape her daughter but she doesn't care of it  
I fuck both and I penetrate then with strenght until make them  
scream  
But specially the little girl before she leaves for going to school

I obligate her to suck and lick my dick every day after the school  
She smells so hard every day and it excites me  
Her anus and little vagina are dirty, paled and sick  
I must penetrate her mouth until make her puke over me

It is a ritual everyday, it is her hell but I like it  
I see how her body and descomposed organs make her a mental damage  
But she doesn't know what happens exactly  
I only play a torture game in her deadly body from her own hell
