Civil War

Amy Dalley

You got your armor
I've got these bullets
Finger on the trigger
I wanna pull it
You're like barbed wire
I feel defenseless
How did we get here
In this mess
Broken promises
And poison words
We prove a point
And we make it hurt

(Chorus)
Civil war, civil war
What do we do with the fallout
The aftermath is raining down
No winners, survivors
Walking off this battle ground
We've been at this so long
We've forgotten
What we're fighting for
It's civil war

No waving white flags
No calling truces
Pick up your weapon
Go on and use it
Destroy the memories
Burn the bridges
Show no mercy
That's how we're living
A bad goodbye
Leaves its mark
We'll move on
And we'll hide the scars

(Repeat Chorus)

This is not who we are
Who we started out to be
Nothing civil about this war
Between you and me

Civil war, civil war
The fallout is raining down
No winners, survivors
Walking off this battle ground
We've been at this so long
We've forgotten
What we're fighting for
It's civil war
Civil war
It's civil war
Civil war
