

# Let's Try Goodbye

Amy Dalley

I had such high hope  
We were what I believed in  
I'm not one to give up  
I feel defeated, and broken, and busted right open  
I'm jaded and empty, this is not who I wanna be

Chorus:

We've tried it your way, tried it my way  
we've tried everything but the highway  
Let's give it up, let's let it go  
Let's let it ride, Let's try good bye

I've stayed for so long cause I couldn't see me without you  
But I have to ask myself  
What am I holdin on too  
A feelin, a dream that's been leavin, it hurts me too hate you when I love you like I do

repeat chorus 2X's
