

Round And Round

Amy Dalley

Love can be an ugly business
Keep you hoping keep you guessing
I know that we've been burned
But a circle's made of curves

(Chorus)

Here we go round and round and round
So hold on tight
Gotta take a chance
Spin the wheel
Land on the sweetest high
And go round and round and round
Like we always do
It's not always how we want it
But we keep pushing through
It's a sure thing me and you
Baby we can't lose

We could hold our hearts for ransom
Or just give in and take our chances
How can we resist
When all the pieces fit

(Repeat Chorus)

We're bound to win it
There's no limit
I'm all in with you yeah

(Repeat Chorus)

It's a sure thing me and you
Baby we can't lose
Baby we can't lose
