

Talk

Amy Dalley

Come on in
It's not a bad time at all
It's been a while
How you been? You're looking good
I was gonna give you a call
I memorized
All the hurtful things you said
Lately missing you is messing with the way
I replay them in my head

(Chorus)

So talk
Tell me how miserable you are
Ramble on
About how much I haven't learned about men
You know that thing about the life that you deserve
Say that again
It makes me mad
When I'm alone I blame myself
I forget a lot of stuff
So I'll shut up
And let you talk

How about the trip
The one where I was such a drag
Where you got drunk and made new friends
And laughed at me
Come on bring it all back
So breaking up
Kind of bummed you out at first
You're amazed at just how fast you caught your breath
Now it doesn't even hurt

(Repeat Chorus)

It makes me mad
When I'm alone I blame myself
I forget a lot of stuff
So I'm glad that you stopped by
You're just proving I was right
You were not the one for me
Oh it's in every word you speak
Sometimes late at night the lonely kind of dilutes my
memories
So I'll shut up
And let you talk
I'll shut up
And let you talk
