

Crowded In Here

Amy Grant

I'm suffocatin', I think I need some air
Maybe try my hand at a game of solitaire
Just for a while, just me, myself and I
Take a little trip to another state of mind
Another planet foreign to the one I'm on
I'm claustrophobic, room is in a spin
Floor has opened up and the walls are closin' in

Endless irritations tuggin' on my sleeves
I'm wearin' out and I think I better leave
Don't keep a vigil, I'll be home soon
I just need a little breathing room

'Cause it's crowded in here
It's crowded in here
Said, it's crowded in here
It's crowded in here

Don't keep a vigil, I'll be home soon
I just need a little breathing room

'Cause it's crowded in here
Yeah, it's crowded in here
It's crowded in here
Said, it's crowded in here
