

Looking for You

Amy Grant

I've waited so long now
I've wanted forever to hold you
Now you're in my arms
And I'll never let you go

Whatever you do, why'know
I'll be standing here beside you baby
Just like a bird that's find it's way back home
I've finally found a place where I belong

I've been looking for you since I took my first breath
And I'll be loving you baby til I take my last
I'd like to know
What would I do without you in my life
From the moment I saw you I knew
I was looking for you

Can I wake up now
Can I believe what I'm feeling
And I'll be sure I wasn't dreaming it all

Baby it's true, you do
Something supernatural to me
Each night I pray to God that you'll be blessed
I need you so much baby I confess

I've been looking for you since I took my first breath
And I'll be loving you baby til I take my last
I'd like to know
What would I do without you in my life
All along I was waiting for you
From the moment I saw you I knew
It had to be you

So sure yours
Together ever after
Now the dream came true
And maybe when you least expect it love will come to you

I'd like to know what would I do without you in my life
All along I was waiting for you
From the moment I saw you I knew
It had to be you

Sweet love came to my life
I was looking for you
Sweet love came to my life
I was looking for looking for you
Sweet love came to my life
I was thinking about you
Sweet love came to my life
All along I was looking for you
Sweet love came to my life
I was thinking about you
Sweet love came to my life
I was thinking about you
Sweet love came to my life

I was thinking about you
Sweet love came to my life
From the moment I saw you I knew
Sweet love came to my life
Looking for you
Sweet love came to my life
I was looking for you
Sweet love came to my life
I was thinking about you
