

# Love Can Do

Amy Grant

Who can say why she turned and walked away  
I can see but she's gone away  
Sometime love means we have to stand the fire  
Everybody runs, everybody hides.

I know this ain't the moon  
Now it's special love  
This won't be I'm sure of.

Hey, little girl runnin' out so fast  
Gotta stay put for love to last  
Why you gotta say that love has gone away  
It's not like that  
Everybody hurts when the feelings fade  
If you want 'em back, you know you gotta stay  
(No runnin'), No runnin'  
Love's coming back like only love can do.

Love can do things you never thought it could  
When the hurt's so bad, make you feel (so good).  
Love's for fools; why's it love to take a chance  
Hear the music girl; let me see you dance.

I know this ain't the moon  
Now it's give and take  
And it's your heart that's take.

Hey, little girl runnin' out so fast  
Gotta stay put for love to last  
Why you gotta say that love has gone away  
It's not like that  
Well, everybody hurts when the feelings fade  
If you want 'em back, you know you gotta stay  
(No runnin'), No runnin'  
Love's coming back like only love can do.

Hey, little girl (Hey, little girl) runnin' so fast (fast)  
Yea, yea lookin' for love you're sure to last.  
Why do I have to see love has gone away  
It's not like that; love's not like that.

Everybody hurts when the feelings fade  
If you want 'em back, you know you gotta stay  
(No runnin'), No runnin'  
Love's coming back like only love can do.

(Hey, little girl runnin' out so fast)  
Gotta stay put for love to last  
Why you gotta say that love has gone away  
It's not like that.  
No everybody hurts when the feelings fade  
If you want 'em back, you know you gotta stay  
(No runnin'), No runnin'  
Love's coming back.

Hey, little girl runnin' out so fast  
Gotta stay put for love to last

Why you gotta say that love has gone away  
It's not like that  
No everybody hurts when the feelings fade  
If you want 'em back, you know you gotta stay  
(No runnin'), No runnin'  
Love's coming back like only love can do.
