

## Closer

Amy Meredith

Sweetheart behind the mirror you hide  
I'll try to find you from the inside  
You strike a chord and it resonates my heart  
And it sings it sets the world alight  
Oh yeah

I can't see in the dark  
But I'm sure I'm getting closer

Racing the landslide  
You and me we grow together  
Calm this ride  
Time won't pass us by

You can't be blamed for caring too much  
Or for growing shy  
You close your eyes and you dream of the time  
You've fallen in love

Racing the landslide  
You and me we grow together  
Calm this ride  
Time won't pass us by

And if I had your touch I could laugh about it  
Just to assure me that this is real  
If I had your touch I could laugh about it  
Just to assure me that this is real

Racing the landslide  
You and me we grow together  
Calm this ride  
Time won't pass us by

I can't see in the dark  
But I'm sure I'm getting closer

I can't see in the dark  
But I'm sure I'm getting closer
