

Faded White Dress

Amy Meredith

S.O.S I'm sick of this
I wanna know I wanna know what it is
I've got my headphones on with rock and roll
There's only room for one of us and it's time to go

All mine now baby all mine now

Hit me then you let me know
Don't stop baby don't stop honey
We'll be dancing to the stereo oh oh oh
You're a drug I can't seem to get enough

Think back why don't you think back
And it's been you all you and it's gotta change
It took you so long but it's still the same
With your white shoes and your faded white dress
And you do what you do and you do when you do

All mine now baby all mine now

Hit me then you let me know
Don't stop baby don't stop honey
We'll be dancing to the stereo oh oh oh
You're a drug I can't seem to get enough

Standing tall looking pretty

I think I'm better alone better alone
All this living is easy
I think I'm better alone

Would you walk away if I told you now
Would you walk away if I told you now
And its been too long all of this time
It took me to long all this time
It took me to long all this time
It took me to long all this time

To let go

Hit me then you let me know
Don't stop baby don't stop honey
We'll be dancing to the stereo oh oh oh
You're a drug I can't seem to get enough

Standing tall looking pretty
I think I'm better alone better alone
All this living is easy
I think I'm better alone

Hit me then you let me know
Don't stop baby don't stop honey
We'll be dancing to the stereo oh oh oh
You're a drug I can't seem to get enough
