

# Violent

Amy Meredith

From the top  
To the ground  
Coming up  
Is better than coming down  
Does it hurt  
When you smile?  
Take a pill  
You'll feel ill for a while now

And it's getting a little violent tonight  
It's getting a little violent tonight  
Your house  
At your house

All I heard  
Was the shout  
She came up  
From under the parking lights  
And these drugs won't make you pretty  
They will make you worse, oh oh oh

It's getting a little violent tonight  
It's getting a little violent tonight  
At your house  
At your house

Disconnect all the power lines  
This could be the last of me, darling  
I don't know what I'm going through  
But this could be the last of me, darling

From the top  
To the ground  
Coming up  
Is better than coming down  
Does it hurt  
When you smile?  
Take a pill  
You'll feel ill for a while now

And it's getting a little violent tonight  
It's getting a little violent tonight  
Your house  
At your house

Disconnect all the power lines  
This could be the last of me, darling  
I don't know what I'm going through  
But this could be the last of me, darling

It's getting a little violent tonight...

At your house  
At your house

Disconnect all the power lines  
This could be the last of me, darling

I don't know what I'm going through  
But this could be the last of me, darling

Disconnect

This could be the last of me, darling  
I don't know what I'm going through  
But this could be the last of me, darling
