

## Fading Picture

Amy Pearson

Did I do something wrong?  
Why did you wait so long  
To take it all away?  
I wasted so much time  
I didn't see the signs  
That stood in my way

Somehow it all just disappeared  
And here I stand with nothing left  
Just a fading picture in my pocket  
That I don't wanna see again  
I can't pretend  
That this was ever meant to be  
But all we are is just a fading picture  
Oh...oh oh.. Mmm mmm

And so the color drains  
From lazy summer days  
and turn to winter nights  
But all those memories  
That started blissfully  
Just ended in fight

Somehow it all just disappeared  
And here I stand with nothing left  
Just a fading picture in my pocket  
That I don't wanna see again  
I can't pretend  
That this was ever meant to be  
But all we are is just a fading picture

And every dream i kept inside  
All this time has washed away  
Like footprints in the tide

Somehow it all just disappeared  
And here I stand with nothing left  
Just a fading picture in my pocket  
That I don't wanna see again  
I can't pretend  
That this was ever meant to be  
But all we are is just a fading picture

There's nothing left  
Just a fading picture in my pocket  
That I don't wanna see again  
I can't pretend that this was ever meant to be  
But all we are is just a fading picture
