

Can I Shower At Yours

Amy Shark

If you only knew what I wanna do
How I wanna lose my mind with you
Waste every second of my life with you
When I go, will you miss me? Watch how quickly I

Everything you say makes me wanna stay
Makes me wanna spend the whole night with you
Fuck it all off and just lie with you
If you try kiss me, watch how quickly I

Fall for you
I fall for you
Fall for you
Now watch how quickly I
Fall for you
I fall for you
I fall for you

Light it up again, breathe it all in
Now I never want this night to end
Can you feel the adrenaline?
I feel so tipsy, watch how quickly I

If you only knew what I wanna do
How I wanna waste my time with you
Call it all off and just lie with you
If you stay with me, watch how quickly I

Fall for you
I fall for you
Fall for you
Now watch how quickly I
Fall for you
I fall for you
I fall for you

What a crazy night
You won by a landslide
Well, you blew my mind
And everybody knew that I would fall for you

Now watch how quickly I
Fall for you
I fall for you
Fall for you
Now watch how quickly I
Fall for you
I fall for you
I fall for you
Now watch how quickly I

If you only knew what I wanna do (Fall for you)
How I wanna lose my mind with you (Fall for you)
Waste every second of my life with you (Fall for you)
When I go, will you miss me? Watch how quickly I

Everything you say makes me wanna stay

Makes me wanna spend the whole night with you
Call it all off and just lie with you
If you try kiss me, watch how quickly I
