

Everybody Rise

Amy Shark

Everybody, everybody (Everybody)
Everybody rise (Rise)

So one day I'm just gonna walk up to you
Say it how it is, I'm in love with you
Been thinking bout this for a month or two
God help me, I've been so scared to
I'm gonna reach out, say "Hey"
Been thinking bout you all day
All these years I've been a ghost to you
Put your hands on me, they'll go straight through

I get it
I'm not
In your league
Too hot
Help me make it stop
God, have mercy on me

Everybody, everybody rise
For you
Everybody, everybody cries
Like I do
We all wonder what it's like
To be
With you
With you
(Everybody rise)

So maybe it's better if I never know
Put my head down and just let it go
The world keeps spinning and the rivers flow
While I scream all night into my pillow

I get it
I'm not
In your league
Too hot
Help me make it stop
God, have mercy on me

Everybody, everybody rise
For you
Everybody, everybody cries
Like I do
We all wonder what it's like
To be
With you
With you
(Everybody rise)

And now my heart's on the floor
When you push back your hair
And I love you from way over there
Everybody, everybody rise
(Everybody, everybody rise)
Yeah, everybody everybody rise

(Everybody, everybody, everybody rise)

Oh, what a wicked world, I'm just a little girl
Keeping my heart to myself when you could've had it all
We could've had it all
Take my whole life, better hold tight
Wanna fly away with you like a red kite
I just wanna know, gotta know what it's like to be with you

Everybody, everybody rise
For you
Everybody, everybody cries
Like I do
We all wonder what it's like
To be
With you
With you
(Everybody rise)

And now my heart's on the floor
When you push back your hair
And I love you from way over there
Everybody, everybody rise
(Everybody, everybody rise)
Yeah, everybody, everybody rise
(Everybody, everybody, everybody rise)
