

Gone

Amy Shark

Now it's gone
Everything we built together
Gone
All the memories we made are
Gone
What you said to me, tell everyone you're dead to me
Gone (Gone, gone)

I slept like hell last night
Thinking 'bout what you said
Please do not promise me anything again
And maybe I'm paranoid
If I am, you're to blame
Please never promise me anything again

Now it's gone
Everything we built together
Gone
All the memories we made are
Gone
What you said to me, tell everyone you're dead to me
Gone (Gone, gone)

Your friends will want to know
What happened to that girl
Constant reminders all around the world
And don't you look back and say
You would've done things differently
It's all over now between you and me

Now it's gone
Everything we built together
Gone
All the memories we made are
Gone
What you said to me, tell everyone you're dead to me
Gone (Gone, gone)
Yeah, it's gone
Even your dark blue sweater
Gone
Even though we both said forever
Gone
What you said to me, tell everyone you're dead to me
Gone (Gone, gone)

And it's hard to fill the space
Sometimes I miss your face
Go and try replace me

Now it's gone
Everything we built together
Gone
All the memories we made are
Gone
What you said to me, tell everyone you're dead to me
Gone (Gone, gone)
Yeah, it's gone

Even your dark blue sweater
Gone
Even though we both said forever
Gone
What you said to me, tell everyone you're dead to me
Gone (Gone, gone)
