

Never Coming Back

Amy Shark

I was in a better place, but
I still wanted to come home to you so bad
Was on my way when everything fell apart

And I hear all of my friends, music in the background
Too much to say, devil's in my mind now
Told you every day, you would really love it here

Now I'm never coming back
I think you should just leave me here
'Cause I'm never coming home
Even though I will miss you babe
Have the time of your life
Be with whoever you want tonight
'Cause I'm never coming home
Even though I will miss you babe

Had a lot to say, but
Now I'm all empty down to the bottom
There's no way I could give you what you want

And I hear all of my friends, music in the background
Too much to say, devil's in my mind now
Told you every day, you would really love it here

Now I'm never coming back
I think you should just leave me here
'Cause I'm never coming home
Even though I will miss you babe
Have the time of your life
Be with whoever you want tonight
'Cause I'm never coming home
Even though I will miss you babe
Even though I will miss you babe

And I hear all of my friends, music in the background
Too much to say, devil's in my mind now
Told you every day, you would really love it here

Now I'm never coming back
I think you should just leave me here
'Cause I'm never coming home
Even though I will miss you babe
Have the time of your life
Be with whoever you want tonight
'Cause I'm never coming home
Even though I will miss you babe

Now I'm never coming back
Now I'm never coming back
Even though I will miss you babe
Now I'm never coming back
Now I'm never coming back
Even though I will miss you babe
