

Our Time Together

Amy Shark

We didn't go far, we didn't go anywhere really
The back of my house, the back of your head I was feeling

And I know you never wanted to go
I didn't want you to leave
And I love that we grew up on these streets

Something about that time
It meant everything
Crossing the friendship line
Every weekend
I took a part of you that I could never give back
Our time together

You were too smart when I would play hard
I was so unstable
When no one's around I'd figure you out
Touch feet under the table

You never wanted to go
I didn't want you to leave
And I love that we grew up on these streets

Something about that time
It meant everything
Crossing the friendship line
Every weekend
And I took a part of you that I could never give back
Our time together

And I want to thank you for what you showed me
Hot-summer-night swims and New Found Glory
And I want to thank you for what you told me
You won't know if you don't try
You're way too good to let your dreams die

Something about that time
It meant everything
Crossing the friendship line
Every weekend
I took a part of you that I could never give back
Our time together

Something about that time
It meant everything
Something about that time
It meant everything
Our time together
Something about that time
It meant everything
Something about that time

It meant everything
