

Slide Down the Wall

Amy Shark

Doesn't matter what I do
I always get emotional with you
And all our clothes are out of sight
You said you loved the mess we made tonight

The more I learn about you
The more I gotta have you
And all this time together
Makes everything feel better
I'm feeling it all
When I get home I slide down the wall
And smile

And I'm in so much trouble, baby
Heaven help anyone who takes you away from me
They're gonna hate me
'Cause I've already called you twice
I know you're busy but I really need your advice
It's always right (You're always right)

The more I learn about you
The more protective of you
And all this time spent together
Makes everything feel better
I'm feeling it all
When I get home I slide down the wall
I'm feeling it all
When I get home I slide down the wall
And smile
