

That Girl

Amy Shark

She said, "Buckle up babe, it's time"
He was all over her late last night
Made me feel sick in my head and my heart
Someone tell me where I'll find her

Everything about that girl
Everything just hurts
Everything in my entire world
Brought down by a girl

Now I live with my friends in a three bed house
Cleaned up my room and I feel a little better
Still talk about her every chance that I get
I'm not there yet
I'm not there
And it's no secret I lost my mind
The day you left my life
And I crack my neck from side to side
People ask me why

(Everything about that)
Everything about that girl
Everything just hurts
Everything in my entire world
Brought down by a girl
I felt like this last week
And the week before that
Go and tell me to move on
Might put her in a song

(Everything about that girl)
(Everything about that girl)

I see her across the street
I see her taking over me
I see her when I'm in my car
Hit my head, I think it's gonna scar
I see her when I'm on my own
I see her telling you to move on
I see her with a bloody tooth
I see her all over you

Everything about that girl
Everything just hurts
Everything in my entire world
Brought down by a girl
Everything about that girl
Everything just hurts
Everything in my entire world
Brought down by a girl

(Everything about that girl)
(Everything about that girl)
