

Different Colour Pills

Amy Studt

Too much, deliberation on each situation
My head begins to wobble loose
My brain it drowns in the cranial juice
Coloured pills, electric blue
Make a habit of, of a lifetime
Push my fingers in, into my eyes
Coloured pills, dance into the night

All of this time (all of this time)
I have been waiting for your love
All of this time (all of this time)
I have been waiting for it, waiting for it

So won't you call me, call me, ahhow, call me, wow wow wow wow
Call me, ahhow, call me, ahhow, call me
I'm a good time girl, I'm a good time girl, I'll be your good time girl

Down the hatch, down in one
Abracadabra, now life is fun
From the humdrum, hummdrum
Not so mean on, Fluoxitine, got to
Meet a man for my, Diazepam
Na na na na na na
Coloured pills, electric blue

All of this time (all of this time)
I have been waiting for your love
All of this time (all of this time)
I have been waiting for it, waiting for it

So won't you, call me, call me, ahhow, call me, wow wow wow wow
Call me, ahhow, call me, ahhow, call me
I'm a good time girl, I'm a good time girl
I'll be your good time girl

(You should just call me
We'll get together
And in the dark I'll be your friend)

Call me, call me, ahhow, call me, wow wow wow wow
Call me, ahhow, call me, ahhow, call me
I'm a good time girl, I'm a good time girl
I'll be your good time girl

(You should just call me
We'll get together
And in the dark I'll be your friend
And with the sunrise
Whatever the weather
I'll be the devil in your eyes)

Call me, call me, call me...
