

## Different Coloured Pills

Amy Studt

Too much, deliberation on each, situation  
My head, begins to wobble loose  
My brain it drowns in the cranial juice  
Coloured pills, electric blue

Make a habit of, of a lifetime  
Push my fingers in, into my eyes  
Coloured pills  
Dance into the night

All of this time, all of this time  
I have been waiting for your love  
All of this time, all of this time  
I have been waiting for it, waiting for it

Call me, call me, call me  
Just call me, call me, call me  
I'm a good time girl, I'm a good time girl  
I'll be your good time girl

Down the hatch. Down in one  
Abracadabra, now life is fun  
From the humdrum  
Humdrum

Not so mean on, Fluoxetine  
Got to, meet a man for my, Diazepam  
Na na na na na na  
Colored pills, electric blue

All of this time, all of this time  
I have been waiting for your love  
All of this time, all of this time  
I have been waiting for it, waiting for it

Call me, call me, call me  
Just call me, call me, call me  
I'm a good time girl, I'm a good time girl  
I'll be your good time girl

Beat the Beta  
Beat, Beat the Beta

(You should just call me  
We'll get together  
And in the dark I'll be your friend)

Call me, call me, call me  
Just call me, call me, call me  
I'm a good time girl, I'm a good time girl  
I'll be your good time girl

(You should just call me  
We'll get together  
And in the dark I'll be your friend  
And with the sunrise  
Whatever the weather

I'll be the devil in your eyes)

I'll be the devil in your eyes

I'll be the devil in your eyes

I'll be the devil in your eyes

Call me, call me, call me
