

Sleepwalker

Amy Studt

Black out, here it comes again
Lights out, through the falling glitter dark descends
Heart beat, why do you fail me now
In the night streets, wailing sirens out

And I just want to go to bed
Lie down and rest my head
We ran all night, we ran all day
Hold me close while we run away

Close your eyes, sleepwalker
Say goodnight, sleepwalker
You'll be fine, lie next to me
In good time, sleepwalker

Dumbstruck, struck dumb by the stupid things you done
You dumbfuck, hold my hand, now I'm not the only one

I take his hand between my legs
And I think that I might die
Maybe we can roll around for a while
Don't tell me any lies

Close your eyes, sleepwalker
Say goodnight, sleepwalker
You'll be fine, lie next to me
In good time, sleepwalker

Violence
In the city tonight
In the city
Violence
In the city tonight
In the city
Violence
In the city tonight
Pack up your windows
Violence
In the city tonight
Pack up your windows
Violence
In the city tonight
Pack up your windows
Violence in the city tonight
Pack up your windows
Violence
In the city tonight
Pack up your windows
Violence
In the city tonight
Pack up your windows
Violence
In the city tonight
Pack up your windows
Violence
In the city tonight
Pack up your windows

Sleepwalker

Lie next to me
