

Violently With Love

Amy Studt

The sound stops when I face the ground
And the earth closes in around me
Came so close to the edge
And I'm so glad I'm still here

It will not stop me
It will not quash me
It will not hush me
And I'll live violently with love
Without your commentary
Without your industry
And I'll live violently with love
With love, with love

Moving out from the night
Open arms stepping into the light
Feel the warmth spread through my bones
Ooh, I'm safe and I'm alone

It will not stop me
It will not quash me
It will not hush me
And I'll live violently with love
Without your commentary
Without your industry
And I'll live violently with love
With love, with love

It takes courage, it takes heart
Give it everything I've got
Had to fight to stay alive
Prisoner of myself and I
Brittle mind keeps turning me
Need the love to set me free
Brittle mind keeps turning me
Need the love to set me free
Violently with love we'll be
Violently with love we'll be
