

# We Fall Down

Amy Wadge

All the pain of it  
All the blame of it  
All the people ask if there's another name for it  
The push and pull of it  
The wonderful of it  
There's no pretending that we do not ever fall for it

The water falls and  
The rock slides there's  
Nothing left here, nowhere to hide just  
The water falls and  
The rock slides there's  
Nothing left here, nowhere to hide

Oh no we fall down again, yeah  
Oh no we fall down  
Oh no we fall down again, yeah  
Oh no we fall down

Oh no we fall down again, yeah  
(We fall down) Oh no we fall down  
Oh no we fall down again, yeah  
(And we fall down) Oh no we fall down

Communicate but it's too late for this  
Cascade, complicated, it's where hate exists

The water falls and  
The rock slides there's  
Nothing left here, nowhere to hide just  
The water falls and  
The rock slides there's  
Nothing left here, nowhere to hide

Oh no we fall down again, yeah  
Oh no we fall down  
Oh no we fall down again, yeah  
Oh no we fall down

Oh no we fall down again, yeah  
(And we fall down) Oh no we fall down  
Oh no we fall down again, yeah  
(And we fall down) Oh no we fall down

Oh no we fall down again, yeah  
(And we fall down) Oh no we fall down  
Oh no we fall down again, yeah  
(And we fall down) Oh no we fall down

Oh no we fall down again, yeah  
Oh no we fall down  
Oh no we fall down again, yeah  
Oh no we fall down
