

Mexico

An Pierlé

A better place than Mexico is hard to be found
Being a long, long way from home eases your mind
It's hard to take courage with no one around
But the deeper you dig the more you'll find without doubt

'Cause how would you feel without best friends
Who'll notice you're there and need a hand
Every day in the morning light
I'm waiting for you to arrive

How would you save me if you would sense I was falling apart
Would you rise to the occasion
How would you know I was living a special all time low
You'd make me believe that you know

'Cause how would you feel without best friends
Who'll notice you're there and need a hand
Every day in the morning light
'Cause everything's easy when you know how to treat me right

A better place than Mexico is hard to be found
Being a long, long way from home eases your mind
It's hard to take courage with no one around
But it's healthy for one's self when you're down

How would you save me if you would sense I was falling apart
Would you rise to the occasion
How would you know I was living a special all time low
You'd make me believe that you know

'Cause how does it feel when you best friends
Notice you're there and need a hand
Every day in the morning light
Everything's easy when you know how to please me
Again and again and again and again till i'm fine
