

Falling Up

Anabel Englund

Nervously calling I call your name
And I wait under the stars
Just to know where you are
Don't mind it, babe
You're ecstasy
Pleasing escape
My destiny

Let go, we're falling up
We're falling up
Let go, fall into love
Fall into love
Let go, we're falling up
We're falling up
Let go, fall into love

Fall with me...
Fall with me...

Fantasy comes when I need you most
While I wait under the stars
Just to know where you are
Don't mind it, babe
You're ecstasy
Pleasing escape
My destiny

Let go, we're falling up
We're falling up
Let go, fall into love
Fall into love
Let go, we're falling up
We're falling up
Let go, fall into love

Fall with me...
Fall with me...
