

Final Fantasy

Anabel Englund

I don't wanna follow no blueprint baby
Flip my heart upside down 180
Taking off all your clothes, can't blame me
Move your tongue up and down

I don't wanna follow no blueprint baby
Flip my heart upside down 180
Taking off all your clothes, can't blame me
Move your tongue up and down

I'm shaking
I'm shaking
Shaking
I'm shaking
Shaking
Shaking

Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Come on right, come on right, come on right

Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
I could be ya final fantasy

Know I'm gonna ride on your body, right now
Keep it up baby don't you slow down
Feeling my heart from the inside back out
Move ya hands up and down

Know I'm gonna ride on your body, right now
Keep it up baby don't you slow down
Feeling my heart from the inside back out
Move ya hands up and down

I'm shaking
I'm shaking

Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down, baby come on right down
Baby come on right down, baby come on right down
Baby come on right, come on right, come on right, come on right
I could be ya final fantasy

Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Come on right, come on right, come on right

Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
Final fantasy right between my knees
Baby come on right down come and give it to me
I could be ya final fantasy
