

# Float

Anabel Englund

(Yeah)

(Yeah)

Falling through thin ice (Thin ice)  
You came over and saved my life (Saved my life)  
My arms were freezing  
I was barely breathing (Breathing)

But you looked at me and said  
Yeah, you kissed my cheek and said  
Ohh, Ana  
Ohh, Ana

We can go to places we never been  
Breathe, let it sink in

We can float  
Let's float  
We can float  
Let's float

We can go to places we never been  
Breathe, let it sink in

My heartbeat is your heartbeat  
Intertwined with the city  
I was broken but you saved me  
Connected by the stars  
We'll never fall apart

'Cause you looked at me and said  
Yeah, you kissed my cheek and said  
Ohh, Ana  
Ohh, Ana

We can go to places we never been  
Breathe, let it sink in  
We can float  
Let's float  
We can float  
Let's float
