

Thunder & Lightning

Anabel Englund

Thunder and lightning
Won't come back to bite me, bite me
Won't be so frightening
The sun will keep shining, shining

I remember when you used to hold me tight
Then you walked away, I toss and turn at night
Feeling like the storm blew out my candlelight
Wonder if I'm ever gonna feel alright

Light as a feather, you're gone forever
I'm feeling better, can't change the weather
Light as a feather, you're gone forever
I'm feeling better, can't change the weather

Blue skies coming at me (Ooh ahh)
I can't change the tide and what it brings (Ooh ahh)
Blue skies coming at me (Ooh ahh)
I can't change the tide and what it brings (Ooh ahh)

Thunder and lightning
Won't come back to bite me, bite me
Won't be so frightening
The sun will keep shining, shining

My friends used to tell me I should wave goodbye
I would never listen I would justify
Round and round and round 'til we would curse the sky
[?] history, I won't repeat it twice

Light as a feather, you're gone forever
I'm feeling better, can't change the weather
Light as a feather, you're gone forever
I'm feeling better, can't change the weather

Blue skies coming at me (Coming at me)
I can't change the tide and what it brings (I can't change it, no)
Blue skies coming at me (Blue skies, baby)
I can't change the tide and what it brings (Can't change it, no)

Goodbye (Goodbye), ooh ahh
Goodbye (Goodbye), ooh ahh
Goodbye (Goodbye), ooh ahh
Goodbye (Goodbye), ooh goodbye
Goodbye, ooh ahh
Goodbye (Goodbye), ooh ahh
Goodbye, ooh ahh
Goodbye (Goodbye), ooh goodbye

(Goodbye
Goodbye)
