

Warm Disco

Anabel Englund

For the broken hearted
Want no more drama
It starts to melt away
Cause my heart could harden
Let's just get started
The beat could save the day
Ooh I've wasted all these days
But I'm not gonna waste them now
I'm on a search to find my peace
And I'm following the sound

So take me to the place
Where I can hear the sound
Warm warm disco
When I see your face
It spins me right round
And round

Take me to the place
Where I can hear the sound
Warm warm disco
When I see your face
It spins me right round
And round

Warm warm disco
Warm warm disco
Warm warm disco
Warm warm disco

Take me to the place
Where I can hear the sound
Warm warm disco
Take me to the place
Where I can hear the sound
Warm warm disco (Warm warm disco)
Take me to the place (Warm warm disco)
Where I can hear the sound (Warm warm disco)
Warm warm disco (Warm warm disco)

Take me to the place
Where I can hear the sound
Warm warm disco
When I see your face
It spins me right round
And round

For the broken hearted
Want no more drama
It starts to melt away
Cause my heart could harden
Let's just get started
The beat could save the day
Ooh I've wasted all these days
But I'm not gonna waste them now
I'm on a search to find my peace
And I'm following the sound

So take me to the place
Where I can hear the sound
Warm warm disco
When I see your face
It spins me right round
And round
