

Zen Cowboy

Anabel Englund

I I'm on a wild horse
You lead the way
Touch me & I know
I'm never alone where I'm going
You're my zen cowboy

I've been losing my mind
Lying on the desert floor
Suns been stuck in the sky
Shining forever more

The darkness starts to hold me tight
It disappears inside your eyes
You are the calm you are the light

I I'm on a wild horse
You lead the way
Touch me & I know
I'm never alone where I'm going
You're my zen cowboy

I've been drifting away
Losing the light of truth
Getting lost in the waves
Waking up in an ocean of you

The darkness starts to hold me tight
It disappears inside your eyes
You are the calm you are the light

I I'm on a wild horse
You lead the way
Touch me & I know
I'm never alone where I'm going
You're my zen cowboy
