

## Everyday, Everynight

Anamanaguchi

Everyday, everynight I think of you  
If you could feel just like the way I do  
Everyday, everynight I think of you  
Maybe you feel just like the way I do

Everyday, everynight  
If you could feel just like  
Everyday, everynight  
If you could feel just like the way I do

Everyday, everynight I think of you  
If you could feel just like the way I do  
Everyday, everynight my dreams so true  
Maybe you feel just like the way I do

Everyday, everynight  
If you could feel just like  
Everyday, everynight  
If you could feel just like the way I do

Tell me you're searching too  
For anything you could know  
For anywhere you should go  
Show me just how you do  
To float through life like it's easy  
Fold your heart when it's breezy

Everyday, everynight I think of you  
If you could feel just like the way I do  
Everyday, everynight my dreams so true  
Maybe you feel just like the way I do  
Everyday, everynight

'Cause any moment we could go back in time  
Unleash the wishes we kept sealed in our minds  
Don't know what I want but I really need you  
I'm trying but I can't, I can't go without you

And all the stars are shining bright in the desert  
So when you will be feeling down, I'll take over  
Be lighting fires around you but they won't hurt  
'Cause we'll be dancing hand in hand with each other  
Everyday, everynight
