

# Rage (Kitchen Sink)

Anamanaguchi

What are you so mad about?  
What have you figured out  
That filled your heart with doubt?  
Annoyed, annoyed  
So annoyed you got to the point  
To smother all your joy  
Jumped into the void

The kitchen sink  
The kitchen sink  
The kitchen sink is getting overflown  
The kitchen sink is flooding out your home

If you thought you had a choice  
A memory or a voice  
The killscreens makin' noise  
Prepare, prepare  
I don't care brat in a cage  
We're in a newer age  
Machine built by the rage

The kitchen sink - the one we're leaving on  
The kitchen sink - the black mold in your lungs  
The kitchen sink - is pouring out your door  
The kitchen sink turned the world to an ocean floor

Where are we gonna go now?

You can't hang out after dark  
Starbucks on your block  
Someone called the cops  
Alone, alone  
Lonely forts fillin' the night  
You don't sleep but you try  
What's peace without the pie

The kitchen sink - the one we're circling down  
The kitchen sink - draining round and round  
The kitchen sink - better find what's floating up  
The kitchen sink - enough to fill your cup
