

# Bad Love

Anarbor

(That's just bad love)

Didn't take long for you to miss me  
I'm like sugar in your coffee  
Take a picture like a hobby  
In the lake there's another body

I never thought you'd be turning your back  
Is this something that you're proud of?  
That's just bad love  
I'm not to blame for holding you back  
Do you see how you act?  
You're so cold

You're just a sad girl with your bad love  
And your cool drugs (cool drugs)  
I think I'm through with you  
It's a made world with some bad words  
Making pretty girls (pretty girls)  
Think I'm through with you

Take a load off, you know it's easy  
Wouldn't take long for you to fix things  
Like a race-car without the fast speeds  
Maserati missing car keys

I never thought you'd be turning your back  
Is this something that you're proud of?  
That's just bad love  
I'm not to blame for holding you back  
Do you see how you act?  
You're so cold

You're just a sad girl with your bad love  
And your cool drugs (cool drugs)  
I think I'm through with you  
It's a made world with some bad words  
Making pretty girls (pretty girls)  
Think I'm through with you

Think I'm through with you (cool drugs)  
Think I'm through with...

If I come back  
If I come back I won't take you back  
If I come back I won't take you back  
I won't take you back  
I won't take you  
If I come back I won't take you back  
I won't take you back  
I won't take you

You're just a sad girl with your bad love  
And your cool drugs (cool drugs)  
I think I'm through with you  
It's a made world with some bad words  
Making pretty girls (pretty girls)

Think I'm through with you

Think I'm through with you (cool drugs)
