

Shades

Anarbor

When I'm leaving you
You keep blowing up my phone
Why don't you leave me alone?
When I'm leaving you
But I can't kiss on my mind
Tryna waste all my time again

I can't believe you fucked me over again
I won't believe that you're as sober again
This shit happened too many times
Oh, you gon' make me lose my mind

When I'm leaving you
You keep blowing up my phone
Why don't you leave me alone?
When I'm leaving you
But I can't kiss on my mind
Tryna waste all my time again
