

Through the Night

Anarbor

Are you the right one?
Are you the wrong one?
From the start, I put it all on you.
Will I take it? Will I leave it?
So it's hard to for me to follow through.

You keep on trying,
I'm dying, just to make it through the night.
Just to make it through the night.
Just to make it through the night.
Don't try to save me,
I'm crazy, will we make it through the night?
Will we make it through the night?
Will we make it through the night?

I stop believing, I started seeing.
Through all the lines, I threw it all on you.
So many reasons why I'm leaving.
And everyone's because of you.

You keep on trying,
I'm dying, just to make it through the night.
Just to make it through the night.
Just to make it through the night.
Don't try to save me,
I'm crazy, will we make it through the night?
Will we make it through the night?
Will we make it through the night?

You keep on trying,
I'm dying, just to make it through the night.
Just to make it through the night.
Just to make it through the night.
Don't try to save me,
I'm crazy, will we make it through the night?
Will we make it through the night?
Will we make it through the night?

Just to make it, just to make it through the night.
