

Until I'm with You

Anarbor

Wake up, what's next?
Coffee, maybe little morning sex
I wonder if today is different
Lockdown keeping me from living in my
Late night feelings
You're keepin' me up
Keepin' me up and I don't mind
Late night feelings
And I'm never really satisfied...

Until I'm with you
Music in the background
Play your favorite track now
I can't keep these eyes off you
Love me 'til I black out
Never bring me back down
Never bring me back down
Love me 'til I black out
Never bring me back down
Yeah love me 'til I black out
Never bring me back down

Will we ever make it out of this alive?
As long as we're together, not afraid to die
But baby either way it's paradise
'Cause I know there's sparkles on the other side
Late night feelings
You're keepin' me up
Keepin' me up and I don't mind
Late night feelings
And I'm never really satisfied...

Until I'm with you
Music in the background
Play your favorite track now
I can't keep these eyes off you
Love me 'til I black out
Never bring me back down
Never bring me back down
Love me 'til I black out
Never bring me back down
Yeah love me 'til I black out
Never bring me back down

You're keepin' me up
Keepin' me up and I don't mind
And I'm never really satisfied...

Wake up, what's next?

Until I'm with you
Music in the background
Play your favorite track now
I can't keep these eyes off you
Love me 'til I black out
Never bring me back down
Never bring me back down

Love me 'til I black out
Never bring me back down
Yeah love me 'til I black out
Never bring me back down
